1. The following is an examiner's statement of reasons for allowance: the "consisting of" language regarding the electroconductive terminals, in combination with the other claimed elements, is not found in the prior art. The teaching reference clearly teaches using the terminals with other optical sensors. There would be no motivation to only use the terminals without the optical sensors (given the Sudolcan et al. reference), and therefore, the claims are allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph A. Kaufman whose telephone number is (571) 272-4928. The examiner can normally be reached on Monday-Thursday, 5:30AM-2PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kevin Shaver can be reached on (571) 272-4720. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
